Subject: Aventur travel application weekly report 3 February 20th, 2023, to February 26th, 2023.

Minutes of Meeting: 01 hours 08 minutes (8:00 am to 9:08 am)

Body:

The third meeting happened on Wednesday, February 22nd,2023. This meeting emphasized an outline of how to develop the web application. This week's focus is on 4 tasks that are assigned to 6 members of the team. 2 members were assigned for API testing, and 4 members were assigned to work on fixing bugs in the front end and back end. Besides this, one member is assigned to build use cases for future business development.

Planned Tasks:

➢ UML diagrams for travel admin and tour guide.

➢ Backend code to submit package details from the dashboard.

➢ Assigned the task of developing a package creation form also writing the post method for storing this form data in the database.

➢ Assigned the task of listing the packages on the front end.

➢ Backend code to submit service to list packages from the front end.

➢ API penetration testing lab setup and testing code analysis.

Accomplishments:

1. Need review from a mentor. 100% accomplished.
2. Integration testing needs to be done. 90% accomplished.
